cavkit[®]

The Flush Finish Cavity Slider

Cavkit can be used to transform standard cavity sliders into architrave free, flush finish cavity sliders. This also complements and tones in with the Ezyjamb[®] flush finish door jamb system. The Cavkit is made up of Ezyreveal[®] and Ezycap[®] to trim and cap the plaster edges around the door penetration. Optional custom made closer cap can be produced to suit any specification.

For more information visit the Ezyjamb website on www.ezyjamb.com.au.
